

Call Block *60 (\$.50/use)

Call Block Instructions (PDF Download)

How to turn Call Block on and off:

-  Pick up the handset, and listen for the dial tone.
-  Press *60. (On a rotary phone, dial 1160.)
- Listen for an announcement telling you whether this feature is currently on or off and then telling you how many (if any) numbers are currently stored in your rejection list.
-  Follow the voice instructions, and press or dial 3 to turn the feature on (if it's currently off) or off (if it's currently on). (To listen to the instructions again, press or dial 0.)

To add the last caller to your list:

-  Press #01#. (On a rotary phone, dial 1201.)
- Follow the voice instructions you'll hear. (To listen to the instructions again, press or dial 0.)

To hear the phone numbers on your list:

1.  Press 1. (On a rotary phone, dial 1.)
2. After your list is read, voice instructions will follow. (To listen to the instructions again, press or dial 0.)

To add a number to your list:

1.  Press #. (On a rotary phone, dial 12.)
2. Follow the voice instructions you'll hear. You can store up to six numbers in your rejection list. (To listen to the instructions again, press or dial 0.)

To delete a number from your list:

1.  Press *. (On a rotary phone, dial 11.)
2. Follow the voice instructions you'll hear. You can remove any or all of the numbers in your rejection list. (To listen to the instructions again, press or dial 0.)

When someone tries to call you:

1. If the service is turned on, callers who are on your rejection list will hear an announcement that your number is not accepting calls at this time.
2. All other calls will ring through as usual.

Note: If you have Call Block, Priority Ringing, and/or Selective Call Forwarding, you will create a list of telephone numbers for each feature. The lists are maintained separately and may contain the same or different numbers.
